Introduction 1
Why You Need This Book 1
How to Use This Book 1
Hundreds of Practice Questions Online! 2
Chapter 1: Preliminaries and Basic Operations 3
Preliminaries 3
Categories of numbers 3
Ways to show multiplication 5
Common math symbols 5
Properties of Basic Mathematical Operations 6
Some properties (axioms) of addition 6
Some properties (axioms) of multiplication 7
A property of two operations 8
Multiplying and Dividing Using Zero 9
Powers and Exponents 9
Squares and cubes 10
Operations with powers and exponents 11
Square Roots and Cube Roots 12
Cube roots 13
Approximating square roots 13
Simplifying square roots 13
Grouping Symbols 15
Parentheses ( ) 15
Brackets [ ] and braces { } 15
Order of operations 16
Divisibility Rules 17
Chapter 2: Signed Numbers, Fractions, and Percents 19
Signed Numbers (Positive Numbers and Negative Numbers) 19
Number lines 19
Addition of signed numbers 20
Subtraction of signed numbers 21
Minus preceding parenthesis 22
Multiplying and dividing signed numbers 22
Fractions 23
Negative fractions 23
Adding positive and negative fractions 23
Subtracting positive and negative fractions 24
Multiplying fractions 24
Early reducing 24
Multiplying mixed numbers 25

Dividing fractions 25
Dividing complex fractions 26
Dividing mixed numbers 26
Simplifying Fractions and Complex Fractions 27
Decimals 28
Changing terminating decimals to fractions 28
Changing fractions to decimals 28
Changing infinite repeating decimals to fractions 29
Percent 30
Changing decimals to percents 31
Changing percents to decimals 31
Changing fractions to percents 31
Changing percents to fractions 33
Finding the percent of a number 34
Other applications of percent 35
Percent—proportion method 36
Scientific Notation 37
Multiplication in scientific notation 37
Division in scientific notation 38

Chapter 3: Terminology, Sets, and Expressions 41

Set Theory 41
Special sets 41
Describing sets 42
Types of sets 42
Comparing sets 42
Operations with sets 43
Variables and Algebraic Expressions 44
Evaluating Expressions 45

Chapter 4: Equations, Ratios, and Proportions 47

Equations 47
Axioms of equality 47
Solving equations 48
Literal equations 51
Ratios and Proportions 52
Ratios 52
Proportions 53
Solving proportions for value 54

Chapter 5: Equations with Two Variables 57

Solving Systems of Equations (Simultaneous Equations) 57
Addition/subtraction method 57
Substitution method 62
Graphing method 64

Chapter 6: Monomials, Polynomials, and Factoring 71
Monomials 71
Adding and subtracting monomials 71
Multiplying monomials 72
Dividing monomials 73
Working with negative exponents 74
Polynomials 74
Adding and subtracting polynomials 74
Multiplying polynomials 75
Dividing polynomials by monomials 77
Dividing polynomials by polynomials 78
Factoring 81
Factoring out a common factor 81
Factoring the difference between two squares 81
Factoring polynomials having three terms of the form $ax^2 + bx + c$ 82
Factoring by grouping 86
Summary of the factoring methods 87

Chapter 7: Algebraic Fractions 89
Operations with Algebraic Fractions 90
Reducing algebraic fractions 90
Multiplying algebraic fractions 90
Dividing algebraic fractions 91
Adding or subtracting algebraic fractions 92

Chapter 8: Inequalities, Graphing, and Absolute Value 97
Inequalities 97
Axioms and properties of inequalities 97
Solving inequalities 99
Graphing on a Number Line 100
Graphing inequalities 101
Intervals 102
Absolute Value 103
Solving equations containing absolute value 103
Solving inequalities containing absolute value and graphing 104

Chapter 9: Coordinate Geometry 109
Coordinate Graphs 109
Graphing equations on the coordinate plane 111
Slope and intercept of linear equations 116
Graphing linear equations using slope and intercept 119
Finding the equation of a line 122
Linear Inequalities and Half-Planes 127
Open half-plane 127
Closed half-plane 128

Chapter 10: Functions and Variations **133**
Functions 133
Relations 133
Domain and range 134
Defining a function 135
Graphs of functions 135
Graphs of relationships that are not functions 136
Determining domain, range, and if the relation is a function 137
Finding the values of functions 139
Variations 140
Direct variation 140
Inverse variation (indirect variation) 143

Chapter 11: Roots and Radicals **147**
Simplifying Square Roots 147
Operations with Square Roots 149
Under a single radical sign 149
When radical values are alike 149
When radical values are different 149
Addition and subtraction of square roots after simplifying 150
Products of nonnegative roots 150
Quotients of nonnegative roots 151

Chapter 12: Quadratic Equations **155**
Solving Quadratic Equations 155
Factoring 155
The quadratic formula 158
Completing the square 161

Chapter 13: Word Problems **165**
Solving Technique 165
Key Words and Phrases 166
Simple Interest 167
Compound Interest 168
Ratio and Proportion 169
Percent 169
Percent Change 170
Number Problems 171
Age Problems 173
Motion Problems 174
Coin Problems 176
Mixture Problems 177
Work Problems 179
Number Problems with Two Variables 180
