1 Sanjaya Lall: A Consummate Development Theorist and Policy Advocate **1**
Rajah Rasiah and Carlo Pietrobelli
Introduction 1
Multinationals and Development 2
Industrial Policy 4
Technological Capabilities 5
Alternative Measures of Competitiveness 8
This Book 9

Section 1

2 Multinational Enterprises, Development and Globalization: Some Clarifications and A Research Agenda **17**
Rajneesh Narula and John H. Dunning
Revisiting the Investment Development Path 18
The Graphical IDP 18
The Interaction IDP 20
What Do We Know About The Interaction Process? 23
Heterogeneity in MNE Activity 28
Revisiting the Motivations of MNE Activity 34
Crowding-in or Crowding-out? The Effect of MNE Activity on Domestic Firms 36
Conclusions and Policy Implications 38

3 R&D, Exports and Systemic Support: Does Ownership Matter in Automotive Parts Firms in East and Southeast Asia **47**
Rajah Rasiah
Theoretical Guide 48
Methodology and Data 50
Statistical Results 55
Conclusions 58

4 **Third World Multinationals Revisited** **63**
Hafiz Mirza and Anne Miroux
The Rise of Developing Country TNCs 64
The Competitive Advantages of Developing Country TNCs 66
The Strategy and Motives of Developing Country TNCs 72
Concluding Remarks: Beyond Third World Multinationals? 76

5 **Upgrading the Technological Capabilities of Foreign Transnational Subsidiaries in Developing Countries: The Case of Electronics in Thailand** **83**
Michael Hobday and Howard Rush
Part 1: TNCs and Technology Upgrading 85
Part 2: Analyzing the TNC Subsidiaries in Thailand 90
Part 3: The Case of Seagate Technology Thailand 102
Part 4: Policy Implications 107
Conclusion 112

Section 2

6 **Incentives, Capabilities, and Space. The Evolution of World Trading System and the Future of Developing Countries** **121**
Ha-Joon Chang
Free Trade Isn't Working: The Disappointing Outcomes 122
Incentives and Capabilities 123
Capability Building and Policy Space 128
Concluding Remarks 133

7 **Natural Resource Industries, "Tragedy of the Commons" and the Case of Chilean Salmon Farming** **137**
Michiko Iizuka and Jorge Katz
Theoretical Considerations 138
Chilean Salmon Industry 143
Conclusions 154

8 **Globalization, Industrial Revolutions in India and China and Labor Markets in Advanced Countries: Implications for National and International Economic Policy** **161**
Ajit Singh
India and China and the World 166
Sustainability of China's and India's Industrial Revolutions 171
Globalization and Labor Market 176
Dangers from New Globalizers for ACs 181
Supply-side Shocks and the Growth of Demand 183
World Financial Imbalances 189
Policy Implications 192

9 The Challenge of Capability-Building in Low Income Economies: What Difference do the Asian Drivers Make? 205
Raphael Kaplinsky
Four Recurring Themes 205
Focusing on Industry 206
The End of Manufacturing? 212
The Diffusion of Manufacturing or the Diffusion of Technological Capabilities? 215
From Strategy to Policy 219

Section 3

10 Innovation Systems and Global Value Chains* 225
Carlo Pietrobelli and Roberta Rabellotti
Innovation Systems in Less Developed Countries 227
GVCs in Developing Countries 229
Innovation Systems and Their Role in a GVC Perspective 235
Conclusions 241

11 Measuring Success in the Global Economy: International Trade, Industrial Upgrading, and Business Function Outsourcing in Global Value Chains 249
Timothy J. Sturgeon and Gary Gereffi
Tracking Global Shifts: Conceptual and Measurement Issues 250
What Trade Statistics Can Reveal About Global Value Chains 252
Using Administrative and Micro-data Resources to Understand Global Value Chains 259
What Trade Statistics Hide 261
Collecting New Data on Business Functions 265
A Proposed List of Business Functions 267
Collecting Data on the Geography of Business Functions 268
Conclusions 273

12 Government Policies and Sources of Firms' Capabilities: A Learning Story from Brazil 281
Paulo N. Figueiredo
Analytical Framework 282
Geographical Focus and Empirical Context 282
Research Methods 283
Empirical Evidence and Discussions 285
Conclusions and Implications 308

13 The Capabilities Foundations of Technology Management in Rapid Growth, Latecomer Success Stories 315
Michael Best
Introduction: Capabilities Perspectives 315
Production Capabilities, Sectoral Transitions and Industrial Growth 317

Business Models 319
Technology Management and Cluster Development: Taiwan's Hsinshu Park 324
Technology Management Capabilities 326

Section 4

14 Economic Development from the Perspective of Evolutionary Economic Theory 333
Richard R. Nelson
The Basic Differences 333
Evolutionary Economic Theory as Growth Theory 337
The Case for an Evolutionary Theory of Economic Catch-up 345

15 Structural Change and Innovation Policy: Catching-up Policy Issues in Evolutionary Perspective 349
Francisco C. Sercovich and Morris Teubal
Phases in Structural Change and Knowledge-based Economic Growth 350
Testing Existing Theories 351
An Evolutionary Interpretation of Structural Change 351
A Three-phase Policy Perspective 357
Strategic Priorities, System Failures and Action Areas 357
Fundamentals Underlying the Innovation and Technology Policy Phases 366
Applying the Framework: New Policy Challenges 370
Summary and Closing Remarks 375

16 Competition Policy, Competitiveness and Economic Development 387
R.Shyam Khemani
Inter-Play and Implications of High Ownership and Product-Financial Market Concentration 388
Pro-growth and Pro-poor Benefits of Competition 391
Nature and Type of Anticompetitive Business Practices 397
Conclusions and Recommendations 399

17 Energizing Industrial Development 407
John A. Mathews
Energy Choices and Development 409
Arguments in Favor of a Fossil Fuel-Independent Strategy 411
Energy Security and the Peaking of Oil Supplies Globally 412
Biofuels as Tested Substitutes for Fossil Fuels 413
Biofuels' Potential to Reduce Fuel Import Bills and Fossil Fuel Dependence 415
Energizing Industrial Development 422
