

8	<i>List of Figures</i>
8	<i>List of Tables</i>
9	<i>List of Concordance</i>
10	<i>Acknowledgments</i>
11	<i>Preface</i>
13	<b>Chapter One. Introduction: Setting the scene</b>
13	1.1 Preliminaries
15	1.2 About this book: aims and scope
17	1.3 Background to climate change
17	1.3.1 Defining climate change: the terms of controversy
19	1.3.2 The Intergovernmental Panel on Climate Change (IPCC)
21	1.3.3 The Kyoto Protocol
23	1.3.4 The Stern Review
24	1.4 Representing climate change: an account
27	1.5 Outline of the chapters
29	<b>Chapter Two. Across the border. Corpus-Assisted Analysis of Newspaper Discourse. Theoretical and Methodological issues</b>
29	2.1 Introduction
30	2.2 Conceptualizing ‘discourse’: a few words
34	2.3 The analysis of discourse within the systemic-functional linguistics paradigm
36	2.4 Discourse and the construction of stance: The appraisal system
37	2.4.1 Attitude
37	2.4.2 Engagement
39	2.4.3 Graduation

40	2.5 Approaches to newspaper discourse
41	2.5.1 The critical approach
42	2.5.2 Critical Discourse Analysis (CDA)
44	2.5.3 White and the rhetoric of the news
46	2.6 Corpora and Discourse: Mapping connections
46	2.6.1 Corpora and corpus linguistics: Overview and background
48	2.6.2 Corpus approaches to discourse analysis
49	2.6.3 The corpus-based and corpus-driven dichotomy
51	2.6.4 The quest for synergy: corpus-assisted discourse study
53	2.6.5 Corpora and idiosyncrasies in text (and discourse)
57	<b>Chapter Three. The Climate Change Press Corpus</b>
57	3.1 Introduction
58	3.2 Description and rationale
58	3.2.1 Newspapers in the corpus and criteria for selection
61	3.2.2 Categorization and distribution of journalistic genres
63	3.3. The British Press
63	3.3.1 Categorization and distribution according to genre
65	3.3.2 News: Composition and distribution according to sections
66	3.4 The American Press
66	3.4.1 Categorization and distribution according to genre
68	3.4.2 News: Composition and distribution according to sections
69	3.5 A view from corpus linguistics: Frequency counts and keyness
69	3.5.1 A few words on frequency
71	3.5.2 Comparing word lists and keyword lists across news
73	3.5.3 Frequency and keyness in opinion discourse
77	Appendix to Chapter Three
81	<b>Chapter Four. Concordancing <i>Climate Change</i>: Patterns, Meaning and Discourse in the news</b>
81	4.1 Introduction
83	4.2 The science of climate change
83	4.2.1 The IPCC Fourth Assessment Report
88	4.2.2 The semantics of causation

106	4.3 Taking action
123	4.4 Engaging responsibility
136	4.5 The threat of climate change
137	4.5.1 The semantics of THREAT
147	4.6 Conclusions
149	<b>Chapter Five. The construction of climate change in newspaper opinion discourse: editorials and op-eds</b>
149	5.1 Introduction
152	5.2 Evaluative stance and intersubjective positioning in opinion discourse
153	5.3 The semantics of ‘necessity’ in editorials
155	5.3.1 <i>Should</i> in the US editorials: eliciting recommended lines of action
163	5.3.2 <i>Should</i> in UK editorials: sanctioning behaviour
168	5.4 Investigating use of the pronoun <i>we</i> in editorials
172	5.5 Managing intersubjective interaction: Reference analysis in op-eds
173	5.5.1 Self Reference: The use of <i>our</i> , <i>we</i> and <i>I</i>
186	5.5.2 Other references: <i>You</i>
192	5.6 Conclusions
195	<b>Chapter Six. Conclusions and Way Forward: A Climate of Change?</b>
197	6.1 Summary of the main findings and conclusions
202	6.2 Limitations and Way Forward
205	<b>References</b>
231	<b>Index</b>
