

Foreword	<i>Professor Joav Merrick</i>	xiii
Chapter 1	Short History of Molds	1
Chapter 2	Epidemiology of Environmental Toxicogenic Mold in Infections	3
Chapter 3	Foods and Toxicogenic Mold Infections	9
Chapter 4	Controversies in the Environmental Health Effects of Toxicogenic Mold and Mycotoxin Exposures	15
Chapter 5	Application, Effectiveness, and Limitations of the Electrophysiological Diagnosis of Neurotoxic Effects of Chronic Environmental Mycotoxins in Humans	27
Chapter 6	Biomolecular Biology of Mycotoxicity	41
Chapter 7	Biochemical Changes in the Serum of Patients with Chronic Toxicogenic Mold Exposures: A Risk Factor for Multiple Renal Dysfunctions	55
Chapter 8	High Cholesterol Levels and Chronic Exposure to Toxicogenic Molds in Damp Buildings: A High Risk for Cardiovascular Diseases and Stroke	65
Chapter 9	The Neurological Significance of Abnormal Natural Killer Cell Activity in Chronic Toxicogenic Mold Exposures	77
Chapter 10	Immunologic Findings in Children with Respiratory Diseases Due to Chronic Toxicogenic Mold and Mycotoxin Exposures	89
Chapter 11	Health Effects of Occupational and Environmental Exposures to Mycotoxic Metabolism of Hydrogen Sulfide	105

Chapter 12	Metabolism of Mycotoxins, Intracellular Functions of Vitamin B ₁₂ , and Neurophysiological Manifestations in Patients with Chronic Toxigenic Mold Exposures	127
Chapter 13	Validating the Association of Pediatric Environmental Chronic Mycotoxic Exposure with Adverse Developmental Health Effects in Adolescence	139
Chapter 14	Brainstem Auditory Evoked Response in Adolescents with Acoustic Mycotic Neuroma Due to Environmental Exposure to Toxic Molds	145
Chapter 15	Neuro-Imaging and Management of Abnormalities in Toxigenic Mold and Mycotoxin Exposed Patients	157
Chapter 16	The Biochemical Impedance on Normal Intracellular Functions of Vitamin B ₁₂ in Toxigenic Mold Exposures	175
Chapter 17	Mycotoxins and Antifungal Drug Interactions: Implications in the Treatment of Illnesses Due to Indoor Chronic Toxigenic Mold Exposures	187
Chapter 18	Evaluation of the Drug Treatment and Persistence of Onychomycosis	207
Chapter 19	Combination of High-Dose Intravenous Immunoglobulins and Itraconazole in Treating Chronic Mycotic Demyelinating Optic Neuritis	229
Chapter 20	Chronic Environmental Exposure to <i>Alternaria Tenuis</i> May Manifest Symptoms of Neuropsychological Illnesses: A Study of 12 Cases	237
Chapter 21	Functional Resolution of Multiple Mycotoxicity	249
Chapter 22	Neurophysiological Evaluation of the Outcomes of Treating Persistent Chronic Mold Infections: A Study of 126 Patients	259
Chapter 23	Systemic Targets of Toxigenic Molds and Mycotoxins	271
Chapter 24	Health Effects of Aspergillus Mycotoxins Exposures	283
Chapter 25	Chemical Structure and Functional Evaluation of the Health Effects of Penicillium Mycotoxins	291
Chapter 26	Involvement of Zearalenone Mycotoxin in Human Reproductive Abnormalities	313
Chapter 27	Structural and Functional Mechanisms of Mycotoxicity	325
Chapter 28	Concentration of Antibodies to Specific Mold Antigens May Determine the Levels of Allergic Reactions to Antibiotics	339

Chapter 29	Toxigenic Mold Sinusitis	349
Chapter 30	Nerve Conduction Velocity in Chronic Mycotoxicity	363
Chapter 31	Penicillium Mycotoxins and their Health Effects	371
Chapter 32	Antifungal Drug Resistance, Economic Cost of Treatment, and the Patient's Quality of Life: Special Focus on Onychomycosis	391
