Contents

Dynamical Systems in One and Two Dimensions: A Geometrical Approach ........................................ 1
Armin Fuchs

Benefits and Pitfalls in Analyzing Noise in Dynamical Systems – On Stochastic Differential Equations and System Identification .................................................. 35
Andreas Dißlershofer

The Dynamical Organization of Limb Movements ........ 69
Raoul Huys

Perspectives on the Dynamic Nature of Coupling in Human Coordination ........................................ 91
Sarah Calva, Viktor K. Jirsa

Do We Need Internal Models for Movement Control? ...... 115
Frédéric Danion

Nonlinear Dynamics in Speech Perception .................... 135
Betty Tuller, Noël Nguyen, Leonardo Lancia, Gautam K. Vallabha

A Neural Basis for Perceptual Dynamics ........................ 151
Howard S. Hock, Gregor Schöner

Optical Illusions: Examples for Nonlinear Dynamics in Perception .................................................. 179
Thomas Ditzinger

A Dynamical Systems Approach to Musical Tonality ........ 193
Edward W. Large

Author Index .................................................................................. 213
