

Preface	x
Acknowledgments	xiii
About the Author	xiv

SECTION 1

	Concept Development in Mathematics	1
UNIT 1	How Concepts Develop in Mathematics	2
UNIT 2	How Concepts Are Acquired	19
UNIT 3	Promoting Young Children's Concept Development through Problem Solving	33
UNIT 4	Assessing the Child's Developmental Level	53

SECTION 2

	Fundamental Concepts and Skills	69
UNIT 5	One-to-One Correspondence	70
UNIT 6	Number Sense and Counting	83
UNIT 7	Logic and Classifying	100
UNIT 8	Comparing	115
UNIT 9	Early Geometry: Shape	126
UNIT 10	Early Geometry: Spatial Sense	140
UNIT 11	Parts and Wholes	153
UNIT 12	Language and Concept Formation	164

SECTION 3**Applying Fundamental Concepts, Attitudes,
and Skills 175**

UNIT 13	Ordering, Seriation, and Patterning	176
UNIT 14	Measurement: Volume, Weight, Length, and Temperature	194
UNIT 15	Measurement: Time	207
UNIT 16	Interpreting Data Using Graphs	221
UNIT 17	Integrating the Curriculum through Dramatic Play and Thematic Units and Projects	231

SECTION 4**Symbols and Higher-Level Activities 243**

UNIT 18	Symbols	244
UNIT 19	Groups and Symbols	258
UNIT 20	Higher-Level Activities and Concepts	274

SECTION 5**Mathematics Concepts and Operations for the
Primary Grades 291**

UNIT 21	Operations with Whole Numbers	292
UNIT 22	Patterns	319
UNIT 23	Fractions	333
UNIT 24	Numbers above 10 and Place Value	347
UNIT 25	Geometry, Data Collection, and Algebraic Thinking	363
UNIT 26	Measurement with Standard Units	383

SECTION 6**The Math Environment 401**

UNIT 27	Materials and Resources for Math	402
UNIT 28	Math in Action	412
UNIT 29	Math in the Home	430

APPENDICES

APPENDIX A	Developmental Assessment Tasks	444
APPENDIX B	Children's Books, Software, and Web Sites with Math Concepts	474
GLOSSARY		489
INDEX		496
