

Colour plates appear between pages 344 and 345

Contributors	xi
Foreword	xvi
Preface	xvii
Preface to the second edition	xviii
Abbreviations	xix
A note on references	xxiii

PART 1 THE FUNCTION OF THE NORMAL PULMONARY CIRCULATION & RIGHT HEART

1	Pulmonary vascular function	3
	<i>Robert Naeije</i>	
2	Right heart function	16
	<i>Anna R Hemnes and Hunter C Champion</i>	

PART 2 PATHOPHYSIOLOGY & PATHOLOGY OF PULMONARY VASCULAR DISEASE

3	Pathology of pulmonary vascular diseases	29
	<i>Peter Dorfmueller</i>	
4	Hypoxic pulmonary vasoconstriction and hypertension	46
	<i>Andrea Olschewski</i>	
5	Pulmonary vascular remodeling and pathobiology of pulmonary hypertension	59
	<i>Nicholas W Morrell</i>	

PART 3 CLINICAL ASSESSMENT OF PULMONARY HYPERTENSION: DIAGNOSIS & MANAGEMENT

6	Clinical features	81
	<i>Andrew J Peacock and Colin Church</i>	
7	Imaging: Echocardiography	100
	<i>Marcin Kurzyna and Adam Torbicki</i>	
8	Imaging: Chest radiography, ventilation/perfusion scintigraphy and computed tomography	115
	<i>Michael Sproule</i>	
9	Imaging: Emerging modalities (MR, PET and others)	128
	<i>Anton Vonk-Noordegraaf</i>	
10	Exercise testing and pulmonary hypertension: Six-minute walk testing and cardiopulmonary exercise testing	138
	<i>Daniel Dumitrescu and Ronald J Oudiz</i>	
11	Blood biomarkers	146
	<i>Christopher Rhodes, Vahitha Abdul-Salam, John Wharton and Martin R Wilkins</i>	
12	Cardiac catheterization of patients with pulmonary hypertension	159
	<i>Todd M Bull, Bertron M Groves and David B Badesch</i>	
13	An integrated approach to the diagnosis of pulmonary hypertension	170
	<i>Robert P Frantz and Michael D McGoon</i>	

PART 4 DISORDERS ASSOCIATED WITH PULMONARY HYPERTENSION

14	Updated clinical classification of pulmonary hypertension <i>David Montani and Gerald Simonneau</i>	197
15.1	Idiopathic and heritable pulmonary hypertension: Introduction to pathophysiology and clinical aspects <i>Kelly Chin, Fernando Torres and Lewis J Rubin</i>	207
15.2	Genetics of pulmonary arterial hypertension <i>Eric D Austin, James E Lloyd and John H Newman</i>	212
15.3	Pulmonary arterial hypertension associated with connective tissue diseases <i>Paul M Hassaun</i>	223
15.4	Pulmonary hypertension related to appetite suppressants <i>Olivier Sitbon, Marc Humbert and Gérald Simonneau</i>	236
15.5	Pulmonary hypertension associated with portal hypertension <i>Philippe Hervé, Laurent Savale, Robert Naeije, Gérald Simonneau, Marc Humbert and Olivier Sitbon</i>	245
15.6	Pulmonary arterial hypertension associated with HIV infection <i>Rudolf Speich</i>	251
15.7	Pulmonary hypertension associated with congenital systemic-to-pulmonary shunts <i>Maurice Beghetti</i>	258
15.8	Hemolysis-associated pulmonary hypertension in sickle cell disease and thalassemia <i>Claudia R Morris and Mark T Gladwin</i>	271
15.9	Pulmonary hypertension in pregnancy <i>Laura Price, Xavier Jaïs and Marc Humbert</i>	288

PART 5 DRUG AND NON DRUG TREATMENT OF PULMONARY HYPERTENSION

16.1	Conventional medical therapies: General measures, supportive treatments and calcium channel blockers <i>Nazzareno Galiè, Alessandra Manes, Massimiliano Palazzini and Enri Leci</i>	303
16.2	Prostacyclins: Intravenous, subcutaneous, inhaled and oral <i>Vallerie McLaughlin and Melvyn Rubenfire</i>	313
16.3	Inhaled nitric oxide and nitric oxide donors <i>Roberto F Machado</i>	326
16.4	Endothelin receptor antagonists <i>Richard N Channick</i>	335
16.5	The nitric oxide and cyclic guanosine monophosphate pathway <i>Colin Church and Andrew Peacock</i>	343
16.6	Combination therapy for pulmonary arterial hypertension <i>Steven M Kawut and Harold I Palevsky</i>	353
16.7	Stem cell therapy <i>Mark L Ormiston, David W Courtman and Duncan J Stewart</i>	361
16.8	Novel anti-proliferative strategies <i>Soni Savoi Pullamsetti, Friedrich Grimminger and Ralph Theo Schermuly</i>	368

PART 6 SURGICAL TREATMENT OF PULMONARY HYPERTENSION

17.1	Lung transplantation <i>Paul A Corris</i>	381
17.2	Atrial septostomy and other interventional procedures <i>Julio Sandoval and Jorge Gaspar</i>	391
17.3	Pulmonary endarterectomy <i>Eckhard Mayer</i>	405
18	An integrated approach to the treatment of pulmonary arterial hypertension <i>Marius M Hoeper</i>	413

PART 7 PULMONARY HYPERTENSION DUE TO CAPILLARY OR POST CAPILLARY DISEASE

19.1	Pulmonary hypertension secondary to left heart failure <i>Marco Guazzi</i>	425
------	-------------------------------------------------------------------------------	-----

19.2	Pulmonary veno-occlusive disease <i>Barbara A Cockrill and Charles A Hales</i>	435
19.3	Pulmonary capillary hemangiomatosis <i>David Langleben</i>	447

PART 8 PULMONARY HYPERTENSION ASSOCIATED WITH DISORDERS OF THE RESPIRATORY SYSTEM AND/OR HYPOXEMIA

20.1	Pulmonary hypertension due to chronic hypoxic lung disease: Chronic obstructive pulmonary disease and interstitial lung disease <i>Joan Albert Barberà, Isabel Blanco and Sandra Pizarro</i>	457
20.2	Pulmonary hypertension in obstructive sleep apnea <i>Kathleen Sarmiento and Steven M Scharf</i>	472
20.3	An integrated approach to the treatment of pulmonary hypertension related to hypoxic lung diseases <i>Ari Chaouat, Emmanuel Gomez, Matthieu Canuet, Christine Selton-Suty, François Chabot and Emmanuel Weitzenblum</i>	479

PART 9 OTHER IMPORTANT CAUSES OF PULMONARY HYPERTENSION

21	Schistosomiasis and others in group 5 <i>Rogério Souza, André Hovnanian, Caio Júlio César Dos Santos Fernandes and Carlos Viana Poyares Jardim</i>	491
----	-------------------------------------------------------------------------------------------------------------------------------------------------------	-----

PART 10 ACUTE AND CHRONIC PULMONARY THROMBOEMBOLISM, PULMONARY VASCULAR TUMORS AND PULMONARY VASCULITIS

22.1	Diagnosis of acute pulmonary thromboembolism <i>Arnaud Perrier and Henri Bounameaux</i>	503
22.2	Treatment of acute pulmonary embolism <i>Victor F Tapson</i>	517
22.3	Chronic thromboembolic pulmonary hypertension <i>Diana Bonderman and Irene M Lang</i>	528
22.4	Pulmonary vascular tumors <i>Kim M Kerr</i>	538
22.5	Pulmonary vasculitis <i>Karina Keogh and Sean P Gaine</i>	544

PART 11 PULMONARY HYPERTENSION IN PEDIATRICS

23.1	Idiopathic pulmonary arterial hypertension in children <i>Dunbar Ivy</i>	559
23.2	Persistent pulmonary hypertension of the newborn: Pathophysiology and treatment <i>Steven H Abman and Robin H Steinhorn</i>	572

PART 12 PULMONARY CIRCULATION IN CRITICAL CARE

24.1	Effects of mechanical ventilation on the pulmonary circulation <i>Michael R Pinsky</i>	587
24.2	Effects of lung injury on the pulmonary circulation <i>Laura Price, TW Evans and S John Wort</i>	607
24.3	Pharmacological management of pulmonary circulation in critically ill patients <i>Horst Olschewski</i>	625

PART 13 PULMONARY CIRCULATION IN SPECIAL ENVIRONMENTS

25.1	High altitude pulmonary hypertension <i>Dante Penaloza</i>	637
------	---------------------------------------------------------------	-----

25.2	High altitude pulmonary edema <i>Marco Maggiorini and Peter Bärtsch</i>	650
25.3	The pulmonary circulation and the underwater environment <i>Stephen J Watt</i>	661

PART 14 DISORDERS CAUSING INTRAPULMONARY SHUNT

26.1	Hepatopulmonary syndrome <i>Michael J Krowka</i>	671
26.2	Pulmonary arteriovenous malformations <i>Claire L Shovlin and James E Jackson</i>	680
Index		695
